Type	API name	# of open stories	Conflict ↓
Apex Triggers Core: Apex Triggers	ApexTrigger	2	⚠️
Field Core: Opportunity : Amount	Amount	2	⚠️
Apex Class Core: ChangePasswordController	ChangePassworC		⚠️
Standard Object Core: Account	Account		
Standard Object Core: Opportunity	Opportunity		
Flow Core: AddProducts	AddProducts		
Flow Core: Add Products To Opportunity Wizard	Add_Products_To		

You can see the conflict against each metadata item.

Orange triangle means that multiple stories in the same release are all impacting the same metadata.

13 : Calculate projected income from raised op... ×

In progress

Type	API name	# of open stories	Conflict ▾
Apex Triggers Core: Apex Triggers	ApexTrigger	2	⚠️
Field Core: Opportunity : Amount	Amount	2	⚠️
Apex Class Core: ChangePasswordController	ChangePasswordController	3	⚠️
Standard Object Core: Account	Account		
Standard Object Core: Opportunity	Opportunity		
Flow Core: AddProducts	AddProducts		
Flow Core: Add Products To Opportunity Wizard	Add_Products		

Red triangle means there is a cross-release conflict.

There are open user stories relating to the same metadata in different releases.

You need to plan how to address that conflict.
